

Maths 29.06.20 'odds and evens'

This week we will explore odd and even numbers.

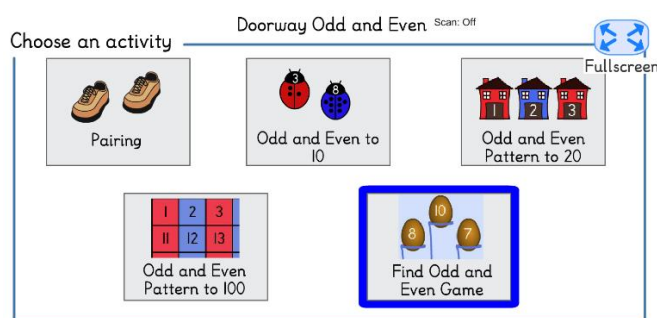

1. Watch the number blocks video on bbc iplayer

<https://www.bbc.co.uk/iplayer/episode/b08r2l4d/numberblocks-series-2-odds-and-evens>

2. You will then need 10 objects. Give your child e.g one cube in their hand. Ask them if they can share it between their hands. No! it must be odd. Next give them 2 cubes, can they share it between their hands? Yes! It must be even, repeat this with objects to 10. (you could do this other ways, sharing grapes/strawberries between two people etc)

3. Visit the link below, here there are 5 different games that the children can play to help them explore odd and even numbers.

<https://www.doorwayonline.org.uk/number/oddandeven/>

4. Have a look at the odds and evens snacks, can they work out if they are odd or even? Another way of doing this is to give the children a number of socks from 1-10. If the number is odd there will be one sock left over if they are even they will all be in pairs 😊
