Life Cycle of a Butterfly

Can you watch the Powerpoint on the Life Cycle of a Butterfly? Or maybe you can research it or you have a book at home about it.

Challenge: Can you make your own life cycle?

You could draw, paint or glue picture for it. You could even use paint on the Ipad or computer? You could use pasta (if you're lucky enough to have some) See how creative you can be. Here are a few examples! We have attached a PDF of a cut and stick if you have a printer and would like to try that

Have fun!
